 **PRAMET**

 **UNION
BUTTERFIELD**

WHO WE ARE

DORMER PRAMET PROVIDES ONE OF THE MOST VERSATILE CUTTING TOOL PROGRAMS IN THE INDUSTRY.

A wide range of rotary and indexable drilling, milling, threading and turning tools from one single source, delivered together in one box.

The quality products from Precision Twist Drill, Dormer, Union Butterfield and Pramet provide customers access to high quality, fit-for-purpose cutting tools.

Our objective is to help your operations run smoothly with secure supplies, uninterrupted production and a fulfilment of a **SIMPLY RELIABLE** promise to our partners.

Dormer Pramet is a proud member of

The Dormer name is globally recognized as a performance leader in round tools. The program includes HSS, cobalt and carbide drills, taps and end mills; delivering high productivity solutions suitable for all production environments. Focused on flexibility, the brand has been simplifying customers' cutting tool selections since 1913.

For more than 60 years, the Pramet brand has offered a world class range of indexable cutting tools which deliver value and versatility across a wide range of drilling, milling, threading and turning applications.

Precision Twist Drill has delivered quality cutting tools since 1952. What started in a suburban Chicago garage has grown into a recognized brand of high quality, reliable drills. The extensive portfolio of HSS and cobalt drills, including our National Aerospace Standard (NAS) tools, are designed to support all segments of manufacturing.

With roots dating back to 1895, Union Butterfield is recognized as a leading brand of HSS general threading tools. The FlashTap® program provides second-to-none speed of delivery (as fast as 24 hours) combined with quality and consistency.

Miranda is recognized as a leading brand of HSS cutting tools & has delivered quality cutting tools since 1945. The extensive portfolio of HSS and cobalt drills, HSS taps, Endmills, Reamers, Annular cutters and Tool bits are designed to support all segments of manufacturing with special focus on general engineering & MRO.

PRODUCTS

We have one of the widest product programmes available, covering solid and indexable tools, High Speed Steel to Solid Carbide tools, and general purpose to high-performance application tooling.

With over 40,000 product lines we provide solutions for virtually every metal-cutting application.

TURNING

Internal and external turning tools, Parting & Grooving, Scarfing & Bar Peeling, Thread turning tools

MILLING

Face Milling, Shoulder Milling, Copy Milling, Disc and shape milling cutters, Roughing cutters, Finishing cutters, HSS-E and Solid carbide cutters, Rotary Burrs

HOLE-MAKING

Solid drills in HSS, HSS-E and Solid Carbide,
Exchangeable head drills, Indexable drills, Reaming
& Countersinking tools, Boring tools

THREADING

Hand & Machine Taps, Material-specific performance taps,
Thread Milling Cutters

SPECIALS

In addition to our standard range we also offer bespoke solutions, from a slight modification of a standard tool to a design -engineered, tailor-made item, all with end-to-end support from enquiry to delivery.

PRODUCTION

OUR PRIMARY MANUFACTURING PLANTS ARE IN SUMPERK, CZECH REPUBLIC AND SÃO PAULO, BRAZIL.

Together, these facilities have more than 100 years of specialized manufacturing experience.

We manage the complete production process, from the processing of raw materials to packing the finished goods. Because this is all controlled in-house, we can guarantee consistently high product quality, time after time.

An additional manufacturing facility located in Chino, California, specializes in the production of tools for aircraft frame and assembly operations.

SALES

Our global sales network touches over 100 markets worldwide, meaning we offer truly global coverage.

With more than 700 employees working in customer-facing roles, we are able to respond quickly to the needs of our customers, sharing experience and knowledge exactly when and where required.

Supported by effective management systems and processes, every Dormer Pramet employee is committed to our vision: zero harm to our colleagues, the environment and our partners.

- Sales office
- Sales representatives
- Distributors

FOCUS INDUSTRY SEGMENTS

Examples of our reliability can be found in a diverse range of industries, though we have specific expertise in several sectors, including:

- General Machining
- Maintenance, Repair and Overhaul (MRO) operations
- Railway
- Heavy Machining
- Die & Mold
- Aerospace frame and assembly

OUR TEAM

RESEARCH AND DEVELOPMENT

Our European manufacturing hub in the Czech Republic is also home to the XP Centre, our global research and development facility, where we focus on three key areas: product development, testing and education.

The materials team based here use state-of-the-art equipment to develop new CVD and PVD coatings and work on improving the implementation of the cutting edge.

The XP Centre is also where we develop and rigorously test new products before launching to the market.

Our customers and channel partners can access our unrivalled industry knowledge via one of our five educational and training centres: Brazil, Czech Republic, Russia, UK & USA.

GLOBAL LOGISTICS

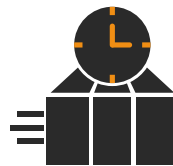

We have strategically located distribution hubs in the US and the Netherlands with additional warehousing operations in Brazil and China.

Thanks to the latest technologies and systems, we are able to guarantee a highly reliable and secure supply process.

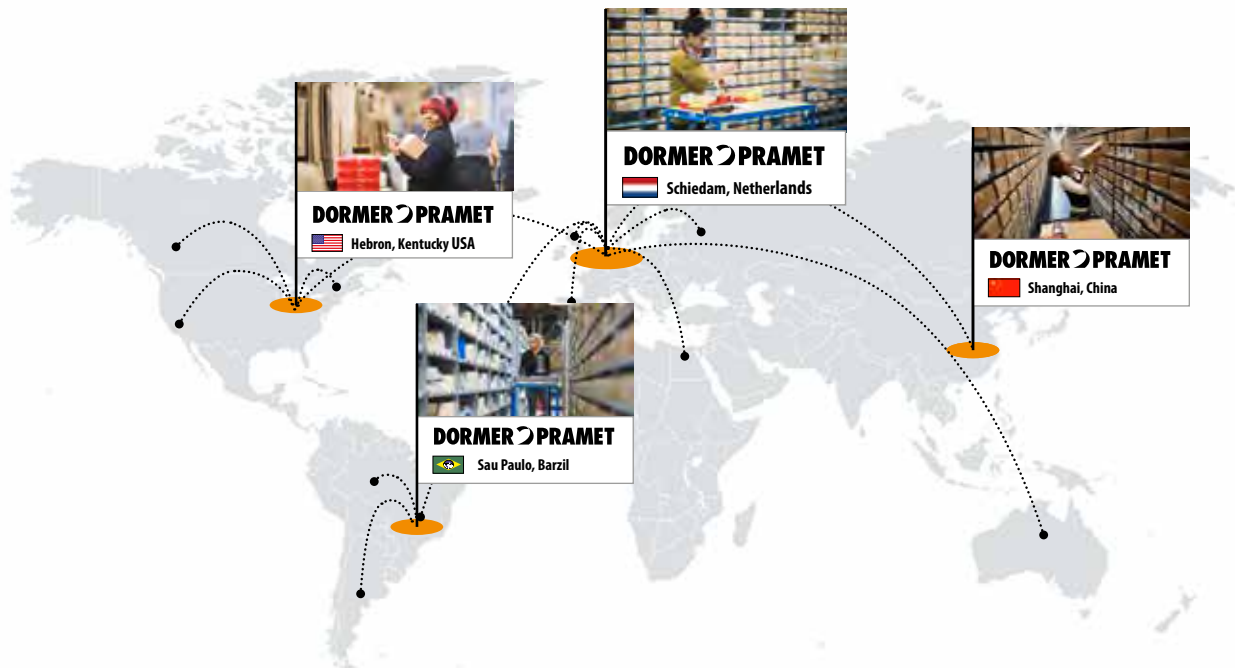

Also, our flexible delivery options and huge stock levels provide customers with complete confidence that they will receive what they ordered, exactly when and where they need it.

OUR ROLE

Dormer Pramet is committed to using engineering and innovation to make the shift towards more sustainable business. Integrating sustainability into our business model and ways of working creates value for all stakeholders: customers, employees, shareholders as well as society.

We take a holistic approach, including the entire value chain into our sustainability agenda. Our main contribution to sustainability is through our products and we work together with our customers and suppliers for more productive, safer and more sustainable solutions.

We have set long-term Sustainability Goals for 2030 in the areas of Climate, Circularity, People and Fair Play are in place to help us make the shift to a more sustainable business, which is one of our strategic objectives of our company.

All of our environmental and sustainability KPIs data are regularly reported and evaluated in our interim reports to ensure we are on the right track.

Circularity

Ensuring at least of 90% material circularity for Packaging, Products, Waste, including key suppliers. We will focus on material and resource efficiency in all our new customer projects; and provide new models for re-use and recycling for our customers too.

CO2 reduction

We are going to reduce our CO2 emissions and reach halve production of CO2 in compare with years 2016-2018. We systematically work on Environmental improvement projects aimed at reducing electricity consumption at our production units. Currently, we are preparing the construction of solar panels on the roofs of one of our production unit.

Zero Harm

We aspire to the highest standards for people and we will keep stepping these standards up higher and higher. By 2030, we want to reach halve Total Recordable Injury Frequency Rate (TRIFR) in compare with base line years 2016 – 2018 until 2030. We regularly raise Health and safety awareness of our employees through workshops, Nanolearnings and the annual Safety Day celebrations.

Fair play goal

We will constantly aim higher in ethics and transparency, being a leader in playing fair and being open.

SIMPLY RELIABLE

As a professional you can judge the quality of work by just looking at the chip. Our chip is a clean and uncomplicated shape that in itself tells a story. It is a clear and consistent signal and that's why we use it as a symbol for being **Simply Reliable**.
